DETAILED ACTION

ART REJECTION:

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Sugiyama et al(6,731,252).

-- In considering claim 1, the claimed subject matter that is met by Sugiyama et al(Sugiyama) includes:

- 1) the monitor is met by the display source unit(9);
- 2) the monitor folding/unfolding detecting means is met by the limit switch(not shown) of the display device(23)(see: column 4, lines 30-34);
- 3) the monitor control means for determining mode is met by the driving circuit(not shown) which turns on backlight based on display mode(see: column 5, lines 25-32).

Allowable Subject Matter

3. Claims 2-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
